

AUTISM AWARENESS

**IT'S OKAY
TO BE DIFFERENT!**

This week we are celebrating Autism and differences

- We are all different. We all need help with some things and are great at other things. Talk to your partner about something you need help with, and something you are great at.

AUTISM

HAS ANYONE HEARD OF
THIS WORD BEFORE?
WHAT DOES IT MEAN?

People with Autism might get distracted by things they see, hear, feel, taste, or smell.

They might need help to concentrate.

Think about the things you can see, hear, feel, taste or smell in your classroom.

People with Autism might have a special interest.
They might know lots about it. Do you have a
special interest?

Today we are going to explore how the things we can hear, touch, smell or see might distract us.

We will also make a decoration to show others what our special interests are.
